

## Audio Soundscape Plan

### Description (100 to 200 words)

This will be an interview of a former optician student who received their diploma. I will be going through what their day looked like, how they managed stress and responsibilities, and any tips on how they stayed on top of their work. I will be conducting this interview to show how much time, dedication and effort it really takes to be a student. The interview will be split into 3 parts. Morning, afternoon, and evening. This will showcase the majority of their day and how they use their time. I will offer any the stage to Jasbir if she wants to give any tips to the listeners.

Element (Note if paired with another element.)	Where will you gather this audio?	What does this element “do” in your story?
Interview	Using audacity I will record the interview.	Gives more insight on what someone’s personal day in the life as a student looked like
Upbeat productive background music	Use YouTube to find some productive sounding audio.	Create a positive feeling of the interview and keeps the listener feeling upbeat
Voiceover for beginning and end of interview	I will record it myself	Concludes and opens the interview for the listener
